BOOKS

It is with books as with new acquaintances. At first we are delighted if we find we agree in a general way, if we feel a friendly influence upon any of the chief sides of our existence. It is only upon closer acquaintanceship that the points of difference become apparent, and then the value of reasonable conduct lies, not in shrinking back at once, as is often the case with children, but in holding fast to the things in which we agree, and arriving at a clear understanding about the things in which we differ, without on that account wishing to come to an agreement upon them. —Goethe.

ANNOUNCEMENTS

The History and Literature club will have an informal open-air party at the home of Mrs. A. W. Payne on Wednesday, September 20.
